WARRANTY

LL217-Modular LED Linear&Tri-proof light is the optimal solution for almost all linear lighting applications thanks to its flexibility, good quality of lighting, precise beam shaping and easy installation.
LED Linear Trunking System adopts patented modular pre-assembled connector design (electrical and mechanical connections) and the system can hold up to 10*2.5mm wires for multi-functions.
Unique sealing material and technique ensures IP65 and makes the light workable even in harsh industrial surroundings.

FEATURES

- IP65
- Modular design, parts interchangeable
- End-to-end connectable, quick installation
- Patented sliding clip design
- Various installations: suspending, flush mounting
- Can be integrated with Dimming (0-10V), emergency function, motion sensing
- 5 years warranty

About us

11 YEARS LED Experience

Zhengzhou Inledco Lighting Co., LTD, located in Zhengzhou city, Henan Province, China, is a leading LED lights manufacturer with professional R&D teams. We started researching and designing LED lights from 2006 and have been exporting 100% of our products to North America and Europe ever since. We are committed to innovation and development of LED lights. Several series of innovative products have been developed and patented, some of which are even leading the trend in the market.
